Dear Mr. Inamori,

It was good to meet you a few weeks ago in Chicago.

We had our Board meeting yesterday. We decided that we will negotiate an aspartame agreement for your short term needs (200 mts in 2005 with shipments as you had outlined) if we can negotiate at the same time a resolution to the neotame blend patent issues. We will not link this discussion to resolving the issue of us shipping Korean aspartame in to The Territory.

We are able to confirm that pending resolution to the blend patent issues we are able to meet your required aspartame needs in 2005 (100 mts shipped in January and 100 mts shipped in April). It would be very beneficial for us to receive a proposal to resolve the blend patent issue before we meet in Tokyo.

If this is acceptable, we look forward to meeting with you on November 30th in Tokyo.

Best regards,

C. Petray
